A distinctive brand

Henri Jeanneau's passion and commitment to quality boat building began in 1957. From the first artisan-crafted runabout to today's precision-manufactured sail and power boats, that passion and commitment is now shared by our 2500 employees and our network of over 300 distributors world-wide.

Our customers help drive the innovation and quality that are the hallmarks of Jeanneau. As experienced sailors, their input enables our design and production teams to quickly implement new ideas and enhance proven ones. The result, as you'll see, is a way of creating boats of extraordinary quality, value and timeless beauty.

Design The Technology of Beauty

The strength of Jeanneau can be seen in the beauty of our boats. World-renowned designers and architects work with our in-house teams from the inception of each project and provide their expertise and innovative ideas. The result of this partnership: captivating and inspiring designs that stand the test of time.

Performance

A Jeanneau must be responsive, agile and fast. Performance encompasses not only speed but exceptional handling under power, smooth passage through heavy seas, confidence and control. Every experience onboard a Jeanneau is enhanced by our well-balanced sail plans, modern hulls, high-end sails and quality deck hardware.

CATIA®

Each new Jeanneau is comprehensively designed via the powerful CATIA® design software. CATIA® allows Jeanneau to design a better boat with more attention to detail in a shorter timeframe.

Research & Development

A specialized Research & Design facility at Jeanneau houses I 30 engineering specialists. This facility is unique in the boat-building sector, providing R&D resources usually available only to large aeronautical and automobile companies.

Construction

The Engineering of Beauty

The Jeanneau Formula for success: Combine 50 years of practical boat building savoir-faire with the latest construction technologies. Invest in and continuously improve technologically advanced factories with ergonomic production lines, computerized processes and efficient logistic supply chains. Translate the efficencies into lower costs and higher quality for the customer:

Superior composite technologies

20 years ago Jeanneau developed a closed moulding process called Prisma Process. This technological edge yields a higher-quality part with a lower weight, but also reduces airborne VOCs by 90% as compared with traditional GRP moulding, thus making it a much greener way to produce boats.

A passion for wood

Rich interior woodworking has always been a signature of Jeanneau quality. Using fine quality hardwoods and marine composites, computerized varnishing machines and CNC routers provide precision parts finished to industrial tolerances. These are then individually assembled with the experienced eye and hand of the craftsman.

Economies of Scale

No other builder enjoys the economies of scale available to Jeanneau. As an integral part of the world's largest sailboat building group, Jeanneau benefits by having access and influence with top-shelf suppliers. This allows us the highest quality materials and components, sourced from the leading suppliers, at appreciable savings to our customers.

The Timelessness of Beauty

Quality The Timelessness of Beauty

Our total quality control system tracks a product through the entire production process and beyond. From laboratory tests of each batch of resin to tank testing to customer satisfaction questionnaires and frequent supplier reviews, we continually seek ways to improve our boats.

Dependability

Quality starts with the best materials and components. Aboard a Jeanneau you will find equipment from the leaders in each field, because we only use suppliers that share our commitment to quality control and product excellence. These premium suppliers also help ensure servicing of your boat's components world-wide.

Safety

Peace of mind is part of the Jeanneau experience, which is why safety is standard. We conduct extensive finite element analysis of our structural systems, design secure handholds throughout, utilize large

hatches that double as emergency egress routes, and only use the highest quality deck fittings. This helps create the legendary Jeanneau seaworthiness that comes with 50 years of experience in building

ISO 900 I

As an ISO 9001 company, the Jeanneau's building process is certified to the highest international standards. Each new sailboat is thoroughly tested throughout the building process and each receives additional tank testing where all systems are put through their paces.

International Standards

All Jeanneau boats carry the CE certification which ensures strict standards for stability, safety and structure. In addition, all boats 12m and over are certified by the Bureau Veritas, an independent engineering certification. This certification includes every part of the conception and building process.

Satisfaction The Enjoyment of Beauty

At Jeanneau, we know that delivering excellent boats is only the beginning; excellent customer service must follow. When you purchase a Jeanneau you become part of our family.

Warranty & Service

Jeanneau has an established and professional distributor network in 50 countries, experienced and regularly trained on the Jeanneau product line and new models. Distributors are aided by an innovative intranet program to facilitate the delivery of spare parts in the shortest time. In addition, each of these distributors is prepared to advise our clients and provide them with the exemplary service they should expect from a major boat builder.

The Jeanneau experience is unique. No other builder can offer the same level of cutting-edge design, superior finish, performance and customer satisfaction - all in a competitively priced package.

Sails for every sailor

At Jeanneau our boats are first and foremost, sailing boats. Modern sail plans and high-aspect rigs set us apart. Conditions vary from ocean to ocean. For this reason, we have designed a complete set of sail choices for your Jeanneau.

Des voiles pour tous les marins.

Un Jeanneau est avant tout un voilier. Il se démarque par un plan de voilure moderne à fort allongement. Les conditions varient selon les plans d'eau, les océans. C'est pourquoi nous avons sélectionné un large choix de voiles pour votre Jeanneau.

Segel für alle Ansprüche.

Eine Jeanneau zeichnet sich vor allem als Segelboot mit modernem, intelligentem Segelplan aus. Die Bedingungen sind je nach Wasserfläche und Seeverhältnissen unterschiedlich. Deshalb halten wir für Ihre Jeanneau eine große Auswahl an Segeln bereit.

Velas para todos los marineros.

Un Jeanneau es ante todo un velero. Se distingue por un velamen moderno y alargado. Las condiciones varían según la superficie de las aguas y los océanos. Es por eso que hemos seleccionado una amplia gama de velas para su Jeanneau.

Vele per tutti i marinai.

Un Jeanneau è prima di tutto una barca a vela. Si distingue per un piano velico moderno a forte allunamento. Le condizioni variano secondo i mari. Ecco perché abbiamo selezionato un'ampia scelta di vele per il vostro Jeanneau.

Standard

Classic mainsail with short overlapping jib

Advantages:

- · High-aspect ratio rig
- Easy handling
- Versatile and balanced sail plan at all angles
- · Good upwind performance

Grand-voile classique avec foc à faible recouvrement

Avantages:

- Un gréement élancé
- Une grande facilité de manœuvre
- Un plan de voilure polyvalent à toutes les allures
- Un très bon cap au près

Klassisches Großsegel mit Fock in geringer Überlappung

Vorteile:

- Ein gestrecktes Takelwerk
- Sehr leichte Manöver
- Ein polyvalenter Segelplan für jeden Kurs
- Sehr guter Am-Wind-Kurs

Vela mayor clásica con Génova 106% con poco recubrimiento

Ventajas:

- Un aparejo estilizado
- Gran facilidad de maniobra
- Un velamen polivalente en todas las velocidades
- Una excelente ceñida

Randa classica con fiocco a basso recupero

Vantaggi:

- Manovre allungate
- Una grande facilità di manovra
- Un piano velico polivalente per tutte le andature
- Un'ottima rotta di bolina

Sun Odyssey 509 Sun Odyssey 469 Sun Odyssey 439 Sun Odyssey 409 Sun Odyssey 33i Sun Odyssey 30i

Additional Sail Options / Voiles Optionnelles / Segel in Option / Velas opcionales / Vele opzionali

In-Mast Furling Mainsail

- Ease of handling
- Quick furling of the sail
- No hassle reefing

Grand-voile enrouleur

- Facilité de manœuvre
- Une voile rapide à ranger
- La prise de ris facilitée et plus précise

Randa avvolgibile

- Facilità di manovra
- Una vela veloce da riporre
- · La presa di terzaroli facilitata e più precisa

Rollgroßsegel

- Hohe Manövrierbarkeit
- Schnelle Aufräumung des Segels
- Vereinfachtes und präziseres Reffen

Vela mayor con enrollador

- Maniobrabilidad
- Una vela rápida de aparejar
- Toma de rizos más fácil y más precisa

Additional Sail Options / Voiles Optionnelles / Segel in Option / Velas opcionales / Vele opzionali

Large overlapping genoa

Advantages:

- Maximum sail area for the performance sailor
- Powerful sail plan in light winds
- Ideal for passage making

Génois à fort recouvrement

Avantages:

- Un maximum de surface de voile pour la performance
- Une géométrie idéale pour le grand large
- Un plan de voilure puissant dans le petit temps

Genua in starker Überlappung

Vorteile

- Maximale Segelfläche für maximale Leistung
- Eine ideale Linie auf hoher See
- Ein leistungsstarker Segelplan im Leichtwindsegel

Génova con mucho recubrimiento

Ventajas:

- Un máximo de superficie vélica para el rendimiento
- Una geometría ideal para el mar abierto
- Un velamen potente con vientos floios

Genoa a forte recupero

Vantaggi:

- Un massimo di superficie di vela per la prestazione
- Una geometria ideale per l'alto mare
- Un piano velico potente con tempo buono

Sun Odyssey 469 - Option

Sun Odyssey 439 - Option

Sun Odyssey 409 - Option

Sun Odyssey 379

Self-tacking jib

Advantages:

- · Hands-free tacking
- Great upwind performance
- Perfect for short-handed cruising

Foc auto-vireur

Avantages:

- Des virements de bords très simples
- Un excellent cap au près
- Un gréement parfaitement adapté aux équipages réduits

Selbstwendender Fock

Vorteile:

- Sehr einfache Kursänderungen
- Sehr guter Am-Wind-Kurs
- Perfektes Takelwerk für kleinere Crew

Foque autovirante

Ventajas:

- Trasluchadas muy sencillas
- Una excelente ceñida
- Un aparejo perfectamente adaptado a las tripulaciones reducidas

Fiocco autovirante

Vantaggi :

- · Virate di bordo molto semplici
- Un'eccellente rotta di bolina
- Manovre perfettamente adeguate agli equipaggi ridotti

Furling Genoa 106 %, Mylar Taffetas

Advantages:

- High end sail cloth material, means less stretch and better performance
- Balanced sail plan for all sailing angles
- Easy to use in all conditions

Génois 106%, Mylar Taffetas

Avantages:

- Matériau haut de gamme pour moins d'allongement et une meilleure performance
- Voile équilibrée et polyvalente à toutes les allures
- Voile facile à manipuler dans toutes les conditions

Vorsegelgenua 106 %, Mylar Taffetas

Vorteile:

- High-End Segeltuch; bedeutet weniger Dehnung und bessere Performance
- Ausgewogener Segelplan für alle Segelkurse
- Einfache Handhabung auf allen Kursen

Génova 106%, Mylar Taffetas

Ventajas:

- Material de alta gama para menos ensanchamiento y un rendimiento mayor
- Una vela equilibrada e polivalente en

todas las velocidades

 Una vela que se manipula facilmente en todas condiciones

Genoa 106%, Mylar Taffetas

Vantaggi:

- Materiale di ottimo livello per meno allugamento e una migliore prestazione
- Una vela equilibrada e polivalente per tutte le andature
- Una vela facile de manovrare in tutte condizioni

Code 0

- $^{\circ}$ Light wind sail designed for sailing angles from 60° to 120°
- Continue to sail in light winds when others need the motor
- Continuous line furling allows for easy furling and unfurling from the cockpit
- Ideal when used on a boat with a short overlapping jib or self-tacking jib to complete the sailing profile of the boat
- $^{\bullet}$ Une voile de petit temps conçue pour des angles de 60° à 120°
- La possibilité de continuer à naviguer quand les autres mettent le moteur
- Un emmagasineur avec circuit en continu, qui permet l'enroulement et le déroulement facile

- depuis le cockpit
- Idéal en combinaison avec un foc à faible recouvrement ou auto-vireur
- Leichtwindsegel für Winkel von 60° bis 120°
- Segeln in jeder Lage ohne Motor
- Eine Rollanlage im geschlossenen Kreislauf, die ein einfaches Aus- und Einrollen vom Cockpit ermöglicht
- Ideal kombiniert mit einem Focksegel in geringer Überlappung oder selbstlenkender Fock
- $^{\circ}$ Una vela de viento ligero diseñada para ángulos de 60 $^{\circ}$ a 120 $^{\circ}$
- La posibilidad de seguir navegando cuando los otros encienden el motor

- Un enrollador con circuito en continuo, que permite un enrollado y
- desenrollado fácil desde la cabina.
- Ideal en combinación con un foque de poco recubrimiento o autovirante
- Una vela per il tempo buono progettata per angoli da 60° a 120°
- La possibilità di continuare a navigare quando altri inseriscono il motore
- Un avvolgitore a circuito continuo, che consente l'avvolgimento e lo svolgimento facile dal pozzetto
- Ideale in associazione con un fiocco a basso recupero o autovirante

The Jeanneau sailboat models are perfect for cruising the open waters with family and friends. But whether at home or abroad, manoeuvring at port is often difficult exacting. This is why jeanneau, together with the ZF Group, has developed an entirely new system, called 360 Docking.

Les voiliers Jeanneau sont formidables pour parcourir les océans en famille ou entre amis. Mais les ports sont souvent une difficulté pour manœuvrer. C'est pourquoi Jeanneau a mis au point avec le groupe industriel ZF, un système totalement nouveau que Jeanneau a appelé le 360 Docking.

Jeanneau-Segelboote sind einfach fantastisch. Schon allein, weil Familie oder Freunde auf See immer dabei sein können. Manöver im Hafen sind im allgemeinen jedoch da und dort ein Handikap: Jeanneau hat in Zusammenarbeit mit der Unternehmensgruppe ZF- Marine die Lösung gefunden, und zwar durch ein ganz und gar neuartiges System, das 360-Docking.

Los veleros Jeanneau son ideales para recorrer los océanos en familia o con amigos. Sin embargo, en los puertos es a menudo difícil de maniobrar. Por ello Jeanneau ha desarrollado con el grupo ZF, un sistema completamente nuevo que Jeanneau ha bautizado el 360 Docking.

Le barche a vela Jeanneau sono formidabili per navigare con la famiglia o gli amici. Ma i porti spesso sono difficili per le manovre. Ecco perché Jeanneau ha messo a punto con il gruppo ZF, un sistema totalmente nuovo chiamato 360 Docking.

Now, docking is child's play!

Les manoeuvres de port deviennent un jeu d'enfant! Die Manöver im Hafen werden zum Kinderspiel Las maniobras de puerto se convierten en un juego de niños Le manovre in porto diventano un gioco da bambini

The concept is simple: the engine is coupled with a pivoting sail drive, capable of rotating 360°.

The joystick transmits the commands to a control box, which uses the autopilot to lock the helm. Then, a simple movement of the joystick controls the orientation and the thrust of the pod, as well as the bowthruster.

Le principe est simple : le moteur est couplé à un sail drive rotatif capable de pivoter sur 360°.

Le joystick transmet les consignes à un ordinateur qui utilise le pilote automatique pour bloquer la barre. Puis régule l'orientation et la puissance du pod ainsi que la mise en œuvre du propulseur d'étrave.

Das Prinzip ist denkbar einfach: Der Bootsmotor ist an ein Saildrive mit einem im 360°-Winkel drehbarem Pod-Antrieb angeschlossen.

Der Joystick überträgt die Anweisungen an einen Bordcomputer, der über den Autopilot das Ruder blockiert. Er steuert die Richtung und die Leistung des Pods sowie den Bugpropeller.

El principio es sencillo: el motor está acoplado a un sail drive rotativo capaz de pivotar 360 °.

La palanca de mando envía instrucciones a un ordenador que utiliza el piloto automático para bloquear la caña. Luego ajusta la orientación y la potencia de la cola y la puesta en marcha del propulsor.

Il principio è semplice: il motore è accoppiato ad un sail drive rotante capace di ruotare su 360°.

Il joystick trasmette le indicazioni di manovra ad un computer che utilizza il pilota automatico per bloccare il timone. Poi il joystick regola l'orientamento e la potenza del pod nonché il funzionamento dell'elica di prua.

No matter its size or weight, the boat will obey your every command.

Quel que soit sa taille et son poids, le bateau vous obéit au doigt et à l'œil.

Und ganz gleich welche Größe oder Gewicht das Boot hat, es folgt jedem Ihrer Order.

Sea cual sea su tamaño y peso, el barco le obedece al milímetro.

Qualunque sia la sua dimensione ed il suo peso, la barca risponde immediatamente.

This revolution technology is only available from Jeanneau.

The 360 Docking system has been developed in several different sizes in order to adapt it to sailboats from 40 to 57'

Esta revolucionaria tecnología se encuentra disponible exclusivamente en los barcos Jeanneau.

El sistema 360 Docking está disponible er diferentes tamaños para adaptarse a veleros Jeanneau de 40' a 57'.

Cette technologie révolutionnaire est exclusivement disponible chez Jeanneau.

Le système 360 Docking existe en plusieurs tailles pour s'adapter aux voiliers Jeanneau de 40' à 57'.

Questa tecnologia rivoluzionaria è disponibile solo sulle barche Jeanneau.

Il sistema 360 Docking esiste in diverse dimensioni per adattarsi alle barche a vela da 40 a 57'.

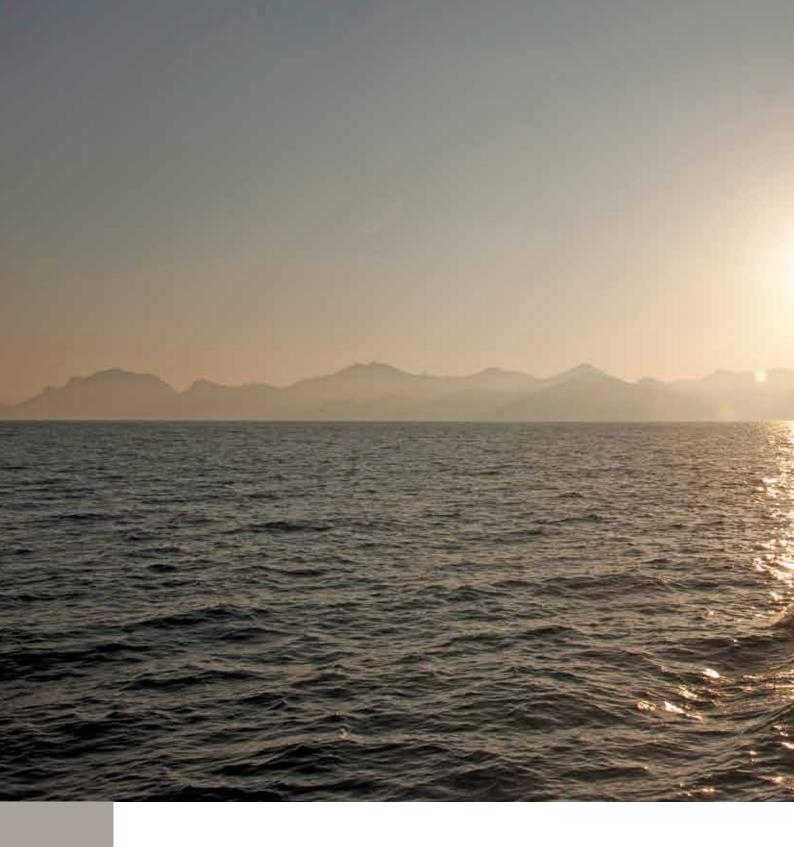

Diese revolutionäre Technik finden Sie nur bei Jeanneau.

Das 360 Docking-System gibt es für Jeanneau Segelhoote von 40' bis 57'
